

WSB Illness Guidelines

We strive to keep our community healthy and in school. In the event of illness, please contact Reception at 410-367-6808, ex. 200 or reception@twsb.org to notify the school that your child will be absent and for guidance on your child's return to school.

- Any child who is displaying signs and/or symptoms of a contagious or infectious condition must stay/go home.
- Any child with a fever over 100° F, vomiting, or diarrhea must stay/go home. Children must be fever-free with no fever-reducing medication for 24 hours before returning to school.
- If a child is not well enough to participate in usual class activities, such as playing outdoors, they should be kept home/will be sent home.
- If a child becomes ill while at school, the office will contact the parent to collect the child to return home.
- In the event of illness, please contact Reception at 410-367-6808, ex. 200 or reception@twsb.org to notify the school that your child will be absent and for guidance on your child's return to school.
- Diagnosed illnesses must be reported to Reception as many illnesses have specific requirements as to when a student can return to school. We will notify classes of a diagnosed illness so that families can make health-related decisions.
- If a child is absent due to any illness for more than five consecutive days, the Baltimore City Health Department requires that parents provide a physician's note upon the child's return to school. The child will not be allowed to return to school without this note.
- There may be situations in which we require an individual or a group to mask when indoors.
